## AGENDA

*The mission of the Center of Excellence in Nutritional Genomics is to reduce and ultimately eliminate racial and ethnic health disparities resulting from environment – gene interactions, particularly those involving dietary, economic, and cultural factors.*

*Our goal is to devise genome-based nutritional interventions to prevent, delay, and treat diseases such as asthma, obesity, Type 2 diabetes, cardiovascular disease, and prostate cancer.*

*To achieve this goal, the Center is taking a multidisciplinary approach to the development of culturally competent methods and novel technologies to elucidate the complex interactions between environmental triggers, genes, and disease.*

8:45 a.m.	Registration
9:00 a.m.	Welcome and Introductions Dr. Bert Lubin Dr. Melanie Tervalon
9:20 a.m.	Prevailing Issues for Nutrition Practitioners
9:40 a.m.	Remarks on Nutritional Genomics and Minority Health Disparities Dr. Ray Rodriguez
10:00 a.m.	Genomics 101 Dr. Kenny Beckman
10:30 a.m.	Nutritional Genomics: Science and Practice Vitamin D Dr. Charles Stephenson Heart Disease Dr. Ron Krauss
11:30 a.m.	Q & A and Discussion
11:45 a.m.	Lunch
12:30 p.m.	Nutritional Genomics: Science and Practice Dr. Ray Rodriguez
1:00 p.m.	Applications of Genetic Profiling Dr. Rosalynn Gill-Garrison
1:30 p.m.	Dr. Bert Lubin, Panel of Discussants
2:00 p.m.	Ethical Issues Dr. Melanie Tervalon
2:45 p.m.	Practical Implications and Wrap Up
3:00 p.m.	Meeting adjourned
